

# Martin B. Henriksen

---

## Experience

### Full time

April 2023– **Integration and Automation Engineer**, *Cryptomathic A/S*, Aarhus.  
Build Infrastructure, Artifact Management and scripts to help developers.

2023Q1 **Mandarin Language Student**, *Ming Chuan University*, Taipei.

2019–2022 **Senior Software Engineer**, *QIAGEN Aarhus A/S*, Aarhus.  
Jack-of-all-trades-ey but still java. Developed feature plug-ins in close cooperation with customers. Integrated product with other systems. Helped spin off a managed service running on AWS. Designed data exports including human readable ones in PDF and HTML/CSS. Automated checks on dependencies to satisfy auditability requirements. Created installation procedure w/ executable installer for new product. Developed system for building in-app data from text.

2018–2019 **Backpacking Vacation**.

2017–2018 **Systems Engineer**, *Systematic A/S*, Aarhus.  
Java Development

## Education

2011–2017 **MSc in Computer Science**, *Aarhus Universitet*.  
**Bachelor Project:** 10 (B), **Master's Thesis:** 10 (B)

## Languages

|          |                        |
|----------|------------------------|
| English  | Excellent              |
| Danish   | Excellent              |
| Mandarin | Not great but learning |

## Other

I am a huge fan of Elon Musk. I like books, travel, and the video game Starcraft. I was a model once so you definitely should use me in your marketing material. I prefer vegetarian food. Breaking Bad is still the best TV show in the universe.
