

# Martin B. Henriksen

---

## Skills and Technologies

**Software Development**, 5+ years experience developing in Java.

**CI/CD**, 1-2 years experience with Jenkins pipelines and related tools like Ansible, Artifactory, Docker.

## Experience

- April 2023– **Integration and Automation Engineer**, *Cryptomathic A/S*, Aarhus.  
Created a tool to allow build pipelines to test on specialized hardware. Also worked on build infrastructure, managing artifacts and creating tools to help developers.
- 2023Q1 **Mandarin Language Student**, *Ming Chuan University*, Taipei.
- 2019–2022 **Senior Software Engineer**, *QIAGEN Aarhus A/S*, Aarhus.  
Developed software features in close cooperation with customers. Helped create SaaS spinoff product, running on AWS. Developed Jenkins CI pipeline. Developed in-house tools including a system for building in-app data from text.
- 2018–2019 **Backpacking Vacation**.
- 2017–2018 **Systems Engineer**, *Systematic A/S*, Aarhus.  
Java development.

## Education

- 2011–2017 **MSc in Computer Science**, *Aarhus Universitet*.  
**Bachelor Project**: 10 (B), **Master's Thesis**: 10 (B)

## Languages

- English    Excellent  
Danish    Excellent  
Mandarin    Intermediate

## Other

Other than software, I am passionate about travel, languages, investing and meditation. Check my website at <https://martinbh.dev>
